

BACHELOR'S IN PUBLIC HEALTH

SPECIAL NOTE

1. All coursework counted in the Public Health major requires a grade of C or higher.
2. In addition to the coursework below, the Public Health major requires completion of a minor or second major.
3. A 2000-level or above Statistics course is strongly recommended, either as part of or in addition to General Education requirements.
4. No courses may overlap between major, minor, or General Education requirements.

What if the class I want is full?

Your academic advisor cannot get you into a class if it is full. These are your options:

1. Contact the department that houses the course you want to get into.
2. Go to the course the first day of class. Try to speak with the instructor about a possible wait list or getting added to the course. It is up to the instructor if they will assist you with adding the class.
3. Wait for a spot to open during the drop/add period in the first week of classes.

Core Courses

Any course approved in a given semester to substitute for a core course cannot also be considered for elective coursework in the major.

PHC Core coursework (18 hours total required in major)

PHC	4101	Introduction to Public Health
PHC	4030	Introduction to Epidemiology
PHC	4069	Biostatistics
PHC	4157	Health Policy and Society
PHC	4047*	Introduction to Environmental Epidemiology
PHC	4470	Health Behavior and Health Promotion

Methods Core requirement (3+ hours required in major) ***

GIS	4421	GIS and Health
GIS	4043/L	Geographic Information Systems (4 hrs)
GIS	4330	Florida GIS Applications
GEO	4930	ST: Open Source GIS
PHC	4721**	Qualitative Methods in Public Health

* Previously listed as PHC 4320 Environmental Health (Fall 2019-Fall 2022) – if taken and completed satisfactorily under the PHC 4320 code, the course cannot subsequently be counted in the major a second time

**Previously listed as PHC 4935 Special Topics (Fall 2019-Summer 2023) – if taken and completed satisfactorily under the PHC 4935 code, the course cannot subsequently be counted in the major a second time.

***Any of the approved Methods courses may be used to meet the 3 hours core requirement. Special Topics courses have a standardized course number in each department but different content – course section must be for the listed topic. Only one methods course may be counted in the major – additional methods courses will not count towards elective hours.

Elective Courses

Elective coursework must come from at least two separate departments as listed.

Courses used to satisfy General Education or minor requirements cannot be used as Public Health electives.

The following courses, if available and completed with the required grade, will count towards the twelve hours elective requirement.
