

Application for Admission to the Applied Economics Specialized Studies Program

Applicants must remain in good academic standing at FSU. ECO2013 and ECO2023 are prerequisites to nearly all economics courses at the 3000/4000 level. The Applied Economics SSP requires 15 hours overall, an overall GPA of 2.0 (or better) in courses used toward the SSP, and a C- or better in each course. Students may not apply more than six hours of credit toward another specialized study, minor, or certificate program. Transfer credit used toward the SSP must be evaluated and approved by the Undergraduate Director for Economics. Admission to this SSP does not require, nor does it imply admission to the Economics major. Specialized studies programs are not intended as a diploma or degree and will not be noted on transcripts from FSU.

Check the category that most accurately describes you:

- Category 1 Declared or intended Economics major
- Category 2 Non-Economics major: Major(s) _____

If you plan to double-major as Economics and something else, please check both categories.
